ENFORCEMENT EVIDENCE POST TRIAL & CONVICTION

Dated May 7, 2021

Pfizer RNA vaccine will cause the destruction of the crystal structure in proteins, and violation of Wave Optics in proteins, thus transforming proteins into prions, as it was in the "mad cow disease" in Britain (BSE - Bovine Spongiform Encephalopathy) in 1980s and 1990s. The human equivalent is Creutzfeldt-Jacob disease (vCJD), or, in other words, the "the mad man disease". The Pfizer vaccination will result in the Zombi Apocalypse. The incubation period is 8 years. Those people who are vaccinated now, will get their proteins transformed into prions exactly for the next financial crisis in ten years, that is, the "great reset".

COVID-19 RNA Based Vaccines and the Risk of Prion Disease

Citation: Classen JB. COVID-19 RNA Based Vaccines and the Risk of Prion Disease. Microbiol Infect Dis. 2021; 5(1): 1-3.Research ArticleABSTRACTDevelopment of new vaccine technology has been plagued with problems in the past. The current RNA based SARS-CoV-2 vaccines were approved in the US using an emergency order without extensive long term safety testing. In this paper the Pfizer COVID-19 vaccine was evaluated for the potential to induce prion-based disease in vaccine recipients. The RNA sequence of the vaccine as well as the spike protein target interaction were analyzed for the potential to convert intracellular RNA binding proteins TAR DNA binding protein (TDP-43) and Fused in Sarcoma (FUS) into their pathologic prion conformations. The results indicate that the vaccine RNA has specific sequences that may induce TDP-43 and FUS to fold into their pathologic prion confirmations. In the current analysis a total of sixteen UG tandem repeats (ΨGΨG) were identified and additional UG (ΨG) rich sequences were identified. Two GGΨA sequences were found. Potential G Quadruplex sequences are possibly present but a more sophisticated computer program is needed to verify these. Furthermore, the spike protein, created by the translation of the vaccine RNA, binds angiotensin converting enzyme 2 (ACE2), a zinc containing enzyme. This interaction has the potential to increase intracellular zinc. Zinc ions have been shown to cause the transformation of TDP-43 to its pathologic prion configuration. The folding of TDP-43 and FUS into their pathologic prion confirmations is known to cause ALS, front temporal lobar degeneration, Alzheimer's disease and other neurological degenerative diseases. The enclosed finding as well as additional potential risks leads the author to believe that regulatory approval of the RNA based vaccines for SARS-CoV-2 was premature and that the vaccine may cause much more harm than benefit.

BOMBSHELL: Gates Foundation, DARPA funding self-replicating, weaponized vaccine technology that began under Apartheid, to exterminate Blacks… and now it's powering the covid vax

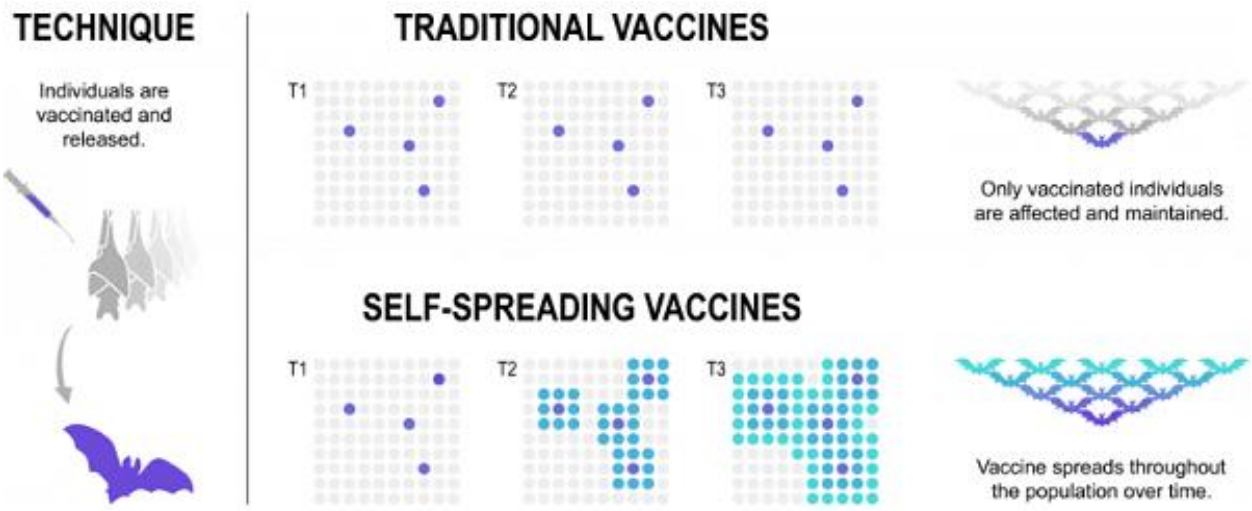
https://www.afinalwarning.com/516747.html

(Natural News) Bombshell story synopsis: Research on race-specific, self-replicating (self-spreading), weaponized vaccines was being conducted by doctors and scientists under the Apartheid regime in the 1990s, with the goal of causing self-spreading infertility and deaths among Blacks.

- This same research continues today, predominantly in the United States, funded by DARPA and the Gates Foundation.
- The technology, known as "self-replicating vaccines," spreads through the population like a virus, causing the spread of infertility and death, all for the purpose of extermination and population reduction.
- This same technology is now believed to be behind covid-19 vaccines, which are transmitting harmful spike proteins to the unvaccinated, causing widespread bleeding, bruising, blood clots and other harmful effects, *even in the unvaccinated*.
- Proponents of self-replicating vaccine technology are self-avowed depopulation advocates who wish to exterminate most of the human beings living today.

In 2020, the Bulletin of the Atomic Scientists published a well-researched article documenting the history of self-spreading vaccines, warning about its implications for humanity. Such technology is prone to "unintended consequences" and cannot be undone, warns The Bulletin in this article entitled, "Scientists are working on vaccines that spread like a disease. What could possibly go wrong?"

That article documents the horrifying history of our self-replicating, race-specific weaponized "vaccines" were under development by the Apartheid regime to exterminate Blacks and keep the White racist regime in power.



A diagram of how a self-spreading vaccine could spread among bats. "Founder" bats inoculated with a self-spreading vaccine passively spread the vaccine to other bats they encounter over time, gradually building up population-level immunity. Credit: Derek Caetano-Anollés.

The article is outstanding and is extensively quoted below. The authors are Filippa Lentzos and Guy Reeves, both Europeans, which explains why they are able to publish dangerous truths that no American journalist would dare utter, out of fear of retribution from the tyrannical medical science establishment that now controls nearly every institution in the United States.

For the record, these two authors are not asserting in their article that covid-19 vaccines are self-replicating vaccines. That's a connection that we have only been able to make recently, after witnessing the explosion of bizarre symptoms emerging in *unvaccinated* people who are merely in close proximity to the vaccinated. Over the last two weeks, thousands of reports of this phenomenon have been received by the top whistleblowers and front line doctors who are sounding the alarm over the experimental "vaccine" injections being aggressively, coercively pushed in the United States, despite the complete lack of any credible evidence that shows such vaccines are safe and effective for widespread, long-term use in healthy, asymptomatic individuals.

From the Bulletin article (selected passages, edited for length):

A small, but growing number of scientists think it's possible to exploit the self-propagating properties of viruses and use them to spread immunity instead of disease.

For at least 20 years, scientists have been experimenting with such self-spreading vaccines, work that continues to this day, and which has gained the attention of the US military.

The biologists Scott Nuismer and James Bull generated fresh media attention to self-spreading vaccines over the summer after publishing an article in the journal Nature Ecology & Evolution.

Once released, scientists will no longer be in control of the virus. It could mutate, as viruses naturally do. It may jump species. It will cross borders. There will be unexpected outcomes and unintended consequences. There always are.

Self-spreading vaccines are essentially genetically engineered viruses designed to move through populations in the same way as infectious diseases, but rather than causing disease, they confer protection. Built on the chassis of a benign virus, the vaccines have genetic material from a pathogen added to them that stimulates the creation of antibodies or white blood cells in "infected" hosts.

The idea, essentially, is to vaccinate a small proportion of a population through direct inoculation. These so-called founders will then passively spread the vaccine to other animals they encounter either by touch, sex, nursing, or breathing the same air. Gradually, these interactions could build up population-level immunity.

The principal security concern is that of dual-use. In essence, this means that the same research that is used to develop self-spreading vaccines to prevent disease, could also be used to deliberately cause harm. You could, for instance, engineer triggers into a virus that cause immune system failures in infected people or animals, a bit like HIV does naturally. Or you could create triggers in a virus that cause a harmful autoimmune response, where the body starts attacking its own healthy cells and tissues.

The bioweapon question. While researchers may intend to make self-spreading vaccines, others could repurpose their science and develop biological weapons. Such a self-spreading weapon may prove uncontrollable and irreversible.

Codenamed Project Coast, South Africa's program was primarily focused on covert assassination weapons for use against individuals deemed a threat to the racist apartheid government.

One of Project Coast's research projects aimed at developing a human anti-fertility vaccine.

The idea took hold during a time of widespread concern over worldwide population explosion. Schalk Van Rensburg, who oversaw fertility-related work at a Project Coast laboratory, told South Africa's post-apartheid Truth and Reconciliation Commission…

Van Rensburg and Daniel Goosen, a lab director, told the Truth and Reconciliation Commission that the real intention behind the project was to selectively administer the contraceptive in secret to unwitting Black South African women.

It doesn't take a massive leap of the imagination to see how the aims of South Africa's anti-fertility vaccine project would have benefited from research into self-spreading vaccines, particularly if you combine it with current developments in pharmacogenomics, drug development, and personalized medicine. Taken together, these strands of research could help enable ultra-targeted biological warfare.

Self-spreading vaccine research is a small but growing field. At the moment, about 10 institutions are doing significant work in the area. These laboratories are primarily located in the United States, but some are in Europe and Australia, as well. As the field expands, so does the potential for abuse.

So far research has primarily been bankrolled by US government science and health funders like the National Science Foundation, the National Institutes of Health, and the Department of Health and Human Services. ***Private organizations like the Gates Foundation and academic institutions have also financed projects. Recently, the Defense Advanced Research Projects Agency (DARPA)****, sometimes thought of as the US military's research and development wing, has gotten involved in the research. The University of California, Davis, for example, is working on a DARPA administered project called Prediction of Spillover Potential and Interventional En Masse Animal Vaccination to Prevent Emerging Pathogen Threats in Current and Future Zones of US Military Operation. According to a pamphlet, the project is "creating the world's first prototype of a self-disseminating vaccine designed to induce a high level of herd immunity (wildlife population level protection) against Lassa virus … and Ebola."*

Learn the shocking truth about how covid-19 vaccines are deliberately designed as biological weapons to exterminate human populations… and why they're being pushed so aggressively before the death wave becomes undeniable

1. If a man who was not vaccinated touches a vaccinated woman, or breathes any of the air she breathes, (in other words, walks by her in the office) and he then has sex with his wife, his wife can have an adverse event and she should avoid having children.

2. If a woman who was never vaccinated gets exposed to a woman who was vaccinated, she can:
A: miscarry,
B: spontaneously abort,
C. poison a baby via her breast milk
D: Have babies that have cognitive difficulties.

Comments by Brian Shilhavy
Editor, Health Impact News

Ever since reports have surfaced in recent days that people who have chosen NOT to receive the experimental COVID-19 shots but have been exposed to those who have received them, and have suffered what appear to be infections coming from these fully "vaccinated" people, affecting mainly women who have reported menstruation difficulties, heavy bleeding, miscarriages, and reduction of breast milk, I have been watching my newsfeed to see if any of the dissenting doctors and scientists we feature regularly here at *Health Impact News* would address these issues.

Fortunately, a team of 5 doctors in the U.S., all of whom we have featured in the past here at *Health Impact News* and are highly qualified to address this topic, just held a round-table discussion a couple of days ago to address these issues.

The issues they discuss affect ALL of us in the U.S. (and around the world) right now, and it is imperative that you take 79 minutes of your time to watch this video.

Not only do these highly qualified doctors discuss why they think this is happening, they also give practical advice at the end about what we can be doing right now to protect ourselves and stop this attack on the human race by the Globalists seeking to reduce the world's population.

Every single one of these doctors believe that these shots are NOT vaccines, but bioweapons designed to kill human beings.

Whatever else you are doing when you come across this video, it is highly unlikely that anything else you do the rest of your day will be more important than watching this video so you can be informed of the evil effects of these injections that are being censored in the corporate media and Big Tech social media.

Then share this video with as many people as you can.

This is from our Bitchute channel, and it will also be available on our Rumble channel.

"Pfizer's own documents state both inhalation and skin contact will transmit whatever is in the vax from the vaccinated to the unvaccinated
Here is what just this small portion of this Pfizer document is saying:

1. If a man who was not vaccinated touches a vaccinated woman, or breathes any of the air she breathes, (in other words, walks by her in the office) and he then has sex with his wife, his wife can have an adverse event and she should avoid having children.

2. If a woman who was never vaccinated gets exposed to a woman who was vaccinated, she can:
A: miscarry,
B: spontaneously abort,
C. poison a baby via her breast milk
D: Have babies that have cognitive difficulties.

This is universal, and very bad. Here is a small section of text I translated to English:

8.3.5.3. Occupational Exposure

"An occupational exposure occurs when a person receives unplanned direct contact with a vaccine test subject, which may or may not lead to the occurrence of an adverse event. These people may include health care providers, family members, and other people who are around the trial participant.

When such exposures happen, the investigator must report them to Pfizer safety within 24 hours of becoming aware of when they happened, regardless of whether or not there is an associated secondary adverse event. This must be reported using the vaccine secondary adverse event report form. Since the information does not pertain to a participant involved in the study, the information will be kept separate from the study."

***TO CLARIFY**: Vaccine study participants become super spreaders of something, they don't say what it is, but it triggers secondary adverse events in people that never had the vax, when they are exposed to people who did have the vax.*

This is so bad that right here, in this little bit of quoted text, it warns that un-vaccinated men who have been exposed to a woman who was vaxxed will then pass whatever is in the vax to another woman.

[11] https://tapnewswire.com/2021/04/stay-away-from-the-vaxxed-it-is-official-from-pfizers-own-documents/

Even the relatively small portion of the document I have put below here says the vax triggers spontaneous abortions and reproductive problems when un-vaccinated people are exposed to the vaccinated and that breast milk from a vaccinated mom can harm the infant. And if anyone does not believe it, then click the link above and wade through that enormous and intentionally confusing document. ***It's for real folks, the vax is indeed the kill shot.***

Do not permit the vaccinated to come anywhere near you, it is now official.

Here is a small portion of this huge document, straight from Pfizer:

Terms:
Study intervention – A vaccine test subject.
AE – Adverse event in someone who got the vax.
SAE: An adverse event in someone who was exposed to someone who got the vax.
EDP: Exposure during pregnancy

8.3.5. ***Exposure During Pregnancy - EDP*** *or Breastfeeding, and Occupational Exposure*
Exposure to the study intervention under study during pregnancy or breastfeeding and occupational exposure are reportable to Pfizer Safety within 24 hours of investigator awareness.
8.3.5.1. ***Exposure During Pregnancy An EDP*** *occurs if:*
** A female participant is found to be pregnant while receiving or after discontinuing study intervention.*
** A male participant who is receiving or has discontinued study intervention exposes a female partner prior to or around the time of conception.*
** A female is found to be pregnant while being exposed or having been exposed to study intervention due to environmental exposure. Below are examples of environmental exposure during pregnancy:*
** A female family member or healthcare provider reports that she is pregnant after having been exposed to the study intervention by inhalation or skin contact.*
** A male family member or healthcare provider who has been exposed to the study intervention by inhalation or skin contact then exposes his female partner prior to or around the time of conception.*

———

If this vax is not shedding into other people, why would contact between vaccinated and un-vaccinated be an event worth noting? If this vax is not shedding, then WHY does a guy who has been around a vaccinated woman, even if he did not touch her or have sex, need to worry about getting a different woman pregnant?

—

That's not all, the following is detailed, and far worse.

The investigator must report EDP to Pfizer Safety within 24 hours of the investigator's awareness, irrespective of whether an SAE has occurred. The initial information submitted

should include the anticipated date of delivery (see below for information related to termination of pregnancy).

** If EDP occurs in a participant or a participant's partner, the investigator must report this information to Pfizer Safety on the Vaccine SAE Report Form and an EDP Supplemental Form, regardless of whether an SAE has occurred. Details of the pregnancy will be collected after the start of study intervention and until 6 months after the last dose of study intervention.*

** If EDP occurs in the setting of environmental exposure, the investigator must report information to Pfizer Safety using the Vaccine SAE Report Form and EDP Supplemental Form. Since the exposure information does not pertain to the participant enrolled in the study, the information is not recorded on a CRF; however, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file. Follow-up is conducted to obtain general information on the pregnancy and its outcome for all EDP reports with an unknown outcome. The investigator will follow the pregnancy until completion (or until pregnancy termination) and notify Pfizer Safety of the outcome as a follow-up to the initial EDP Supplemental Form. In the case of a live birth, the structural integrity of the neonate can be assessed at the time of birth. In the event of a termination, the reason(s) for termination should be specified and, if clinically possible, the structural integrity of the terminated fetus should be assessed by gross visual inspection (unless preprocedure test findings are conclusive for a congenital anomaly and the findings are reported). Abnormal pregnancy outcomes are considered SAEs. If the outcome of the pregnancy meets the criteria for an SAE (i.e., ectopic pregnancy, spontaneous abortion, intrauterine fetal demise, neonatal death, or congenital anomaly), the investigator should follow the procedures for reporting SAEs. Additional information about pregnancy outcomes that are reported to Pfizer Safety as SAEs follows:*

** Spontaneous abortion including miscarriage and missed abortion;*

** Neonatal deaths that occur within 1 month of birth should be reported, without regard to causality, as SAEs. In addition, infant deaths after 1 month should be reported as SAEs when the investigator assesses the infant death as related or possibly related to exposure to the study intervention. Additional information regarding the EDP may be requested by the sponsor. Further follow-up of birth outcomes will be handled on a case-by-case basis (e.g., follow-up on preterm infants to identify developmental delays). In the case of paternal exposure, the investigator will provide the participant with the Pregnant Partner Release of Information Form to deliver to his partner. The investigator must document in the source documents that the participant was given the Pregnant Partner Release of Information Form to provide to his partner.*

8.3.5.2. Exposure During Breastfeeding An exposure during breastfeeding occurs if:
** A female participant is found to be breastfeeding while receiving or after discontinuing study intervention.*
** A female is found to be breastfeeding while being exposed or having been exposed to study intervention (i.e., environmental exposure). An example of environmental exposure during breastfeeding is a female family member or healthcare provider who reports that she is breastfeeding after having been exposed to the study intervention by inhalation or skin contact.*

The investigator must report exposure during breastfeeding to Pfizer Safety within 24 hours of the investigator's awareness, irrespective of whether an SAE has occurred. The information must be reported using the Vaccine SAE Report Form. When exposure during breastfeeding occurs in the setting of environmental exposure, the exposure information does not pertain to the participant enrolled in the study, so the information is not recorded on a CRF. However, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file. An exposure during breastfeeding report is not created when a Pfizer drug specifically approved for use in breastfeeding women (e.g., vitamins) is administered in accord with authorized use. However, if the infant experiences an SAE associated with such a drug, the SAE is reported together with the exposure during breastfeeding.
Here's the clear part of this, that everyone can understand:

8.3.5.3. Occupational Exposure An occupational exposure occurs when a person receives unplanned direct contact with the study intervention, which may or may not lead to the occurrence of an AE. Such persons may include healthcare providers, family members, and other roles that are involved in the trial participant's care. The investigator must report occupational exposure to Pfizer Safety within 24 hours of the investigator's awareness, regardless of whether there is an associated SAE. The information must be reported using the Vaccine SAE Report Form. Since the information does not pertain to a participant enrolled in the study, the information is not recorded on a CRF; however, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file.

I will translate that to English:

An occupational exposure occurs when a person receives unplanned direct contact with a vaccine test subject, which may or may not lead to the occurrence of an adverse event. These people may include health care providers, family members, and other people who are around the trial participant.

When such exposures happen, the investigator must report them to Pfizer safety within 24 hours of becoming aware of when they happened, regardless of whether or not there is an associated secondary adverse event. This must be reported using the vaccine secondary adverse event report form. Since the information does not pertain to a participant involved in the study, the information will be kept separate from the study.

Why Would Anyone Choose to Receive an Experimental COVID mRNA Injection?
https://medicalkidnap.com/2021/01/27/why-would-anyone-choose-to-receive-an-experimental-covid-mrna-injection/
by Brian Shilhavy
Editor, Health Impact News

SUMMARY: The headlines and subject matter of our articles the past couple of weeks have been very somber, documenting how serious injuries and deaths are happening just shortly after people have been injected with one of the two experimental mRNA COVID injections by either Pfizer, or Moderna.

Big Pharma, the U.S. Government, and the Pharma-controlled media continue to try and downplay these deaths and injuries, denying that they have any relationship to receiving these COVID injections.

However, the evidence that we have presented here at Health Impact News, paints a very different picture, suggesting that this issue is far more serious than the corporate media, and even most in the alternative media, are reporting.

So, this begs the question: Why would anyone choose to receive one of these injections in the first place?

Most people who have received one of these injections, or plan to receive one, would probably answer something like: "To prevent me from getting the COVID-19 virus, or prevent me from spreading it to others."

For those of us trying to shine truth and light into darkness and deception, I really think this is where the conversation needs to begin.

For those who are less informed and simply have a religious-like faith in vaccines in general, and the experimental COVID injections specifically, without ever having spent much time actually researching them, we need to stop defending what we have learned, and instead ask them to defend their faith in these shots, and then be prepared to answer their positive beliefs in these shots with verifiable facts that they can look up and research themselves.

What Does the FDA Say About the Experimental COVID Shots?

So let's begin with what the official FDA guidelines, published on the FDA government website, state as facts regarding these injections.

For the "Pfizer-BioNTech COVID-19 Vaccine" you can find the FDA's *Fact Sheet for Healthcare Providers Administering Vaccine* and the *Fact Sheet for Recipients and Caregivers* on the FDA website here. https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/pfizer-biontech-covid-19-vaccine

For the "Moderna COVID-19 Vaccine" you can find the FDA's *Fact Sheet for Healthcare Providers Administering Vaccine* and the *Fact Sheet for Recipients and Caregivers* on the FDA website here. https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/moderna-covid-19-vaccine

Fact #1 – These "vaccines" are NOT approved by the FDA.

FDA Pfizer Fact Sheet: https://www.fda.gov/media/144414/download

There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.

The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. There is no FDA-approved vaccine to prevent COVID-19.

HAS THE PFIZER-BIONTECH COVID-19 VACCINE BEEN USED BEFORE? The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine.

FDA Moderna Fact Sheet: https://www.fda.gov/media/144638/download

There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.

The Moderna COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. There is no FDA-approved vaccine to prevent COVID-19.

HAS THE MODERNA COVID-19 VACCINE BEEN USED BEFORE? The Moderna COVID-19 Vaccine is an unapproved vaccine.

Fact #2 – Risks to these Unapproved Vaccines are UNKNOWN

FDA Pfizer Fact Sheet, https://www.fda.gov/media/144414/download
after giving a list of possible side effects, then states:

These may not be all the possible side effects of the Pfizer-BioNTech COVID-19 Vaccine. Serious and unexpected side effects may occur. Pfizer-BioNTech COVID-19 Vaccine is still being studied in clinical trials.

FDA Moderna Fact Sheet, https://www.fda.gov/media/144638/download
after giving a list of possible side effects, then states:

These may not be all the possible side effects of the Moderna COVID-19 Vaccine. Serious and unexpected side effects may occur. The Moderna COVID-19 Vaccine is still being studied in clinical trials.

Fact #3 – Efficacy in preventing COVID-19 is UNKNOWN

FDA Pfizer Fact Sheet: https://www.fda.gov/media/144414/download

The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19.

The Pfizer-BioNTech COVID-19 Vaccine may not protect everyone.

In an ongoing clinical trial, the Pfizer-BioNTech COVID-19 Vaccine has been shown to prevent COVID-19 following 2 doses given 3 weeks apart. The duration of protection against COVID-19 is currently unknown.

FDA Moderna Fact Sheet: https://www.fda.gov/media/144638/download

The Moderna COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19.

The Moderna COVID-19 Vaccine may not protect everyone.

In an ongoing clinical trial, the Moderna COVID-19 Vaccine has been shown to prevent COVID-19 following 2 doses given 1 month apart. The duration of protection against COVID-19 is currently unknown.

What do Dissenting Doctors and Scientists Say about the Experimental, Non-FDA Approved COVID mRNA "Vaccines"?

When you purchase something online, do you read reviews of the product first, to find out what people say about that product, both positive and negative?

If you make a major purchase, such as purchasing a home or car, do you research all the positive and potential negative data that is available about this major purchase, prior to making a decision?

Or do you just accept the marketing sales data about that product at face value without researching to see if their claims are accurate, including possibly searching to see if any complaints have been logged against the manufacturer with places like the Better Business Bureau, etc.?

When dealing with a biological agent that is injected into your body with potential far-reaching effects on your health, would you not want to do the same thing, and to hear dissenting views as well as the "marketing sales data" that Big Pharma is presenting?

When it comes to vaccines in general, and the experimental mRNA COVID injections in particular, Big Pharma, the U.S. Government health agencies, and their corporate media outlets, do not believe that you have a right to hear dissenting views, because they believe they are the only authority when it comes to matters of "public health." https://created4health.org/the-authority-to-heal/
As a result, those with dissenting views, which many times include whistleblowers who used to work for Big Pharma, are heavily censored, and if the information gets out past their censorship, then those doctors and scientists are slandered and called "quacks" or "fringe doctors," etc.

Any product that cannot handle criticism to the point that significant finances and resources are spent trying to censor any negative information about those products, should raise red flags.

The facts I am presenting here are the facts that highly credentialed and intelligent doctors and scientists do not believe that these experimental mRNA injections should be tested on the public.

What they actually say is their opinion. But the doctors and scientists who work for the FDA, almost all of whom are financially connected to Big Pharma, also are offering their opinions when they recommend that a non-FDA approved biological injection should be given "emergency use authorization" due to a "pandemic" that is now over a year old, with no end in sight.

Dr. Sin Hang Lee, Dr. Michael Yeadon, and Dr. Wolfgang Wodarg

Dr. Sin Hang Lee is a pathologist and founder of Milford Molecular Diagnostics, a CLIA-certified diagnostic laboratory in Milford, Connecticut. http://www.dnalymetest.com/home.html

Dr. Lee is a world-renowned expert on DNA sequencing-based diagnostics. He has trained and taught in some of the world's most prestigious institutions and has published scores of scientific articles in peer-reviewed journals.

He recognized very early on that the PCR tests and other tests fast-tracked by the FDA were not accurate in identifying SARSCoV-2 RNA, and even sent a letter, back in March [2020], to Dr. Margaret Harris and Dr. Eduardo Guerrero of the World Health Organization, and Dr. Anthony Fauci at the National Institute of Allergies and Infectious Diseases of the National Institutes of Health (NIH), explaining why the tests to detect SARS-CoV-2 RNA were generating false positives and negatives.

You can read his March 22, 2020 letter here. He explained that a two-phased test would "guarantee no-false positive results" based on his research and published work from Japan. http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/04-30-20-Letter-to-WHO-and-Dr.-Fauci.pdf

He never received a response to his letter.

As 2020 was drawing to a close and it was well-known that the FDA was preparing to issue emergency use authorizations to Pfizer and Moderna for the experimental mRNA injections, Dr. Lee filed an ADMINISTRATIVE STAY OF ACTION with the Department of Health and Human Services and the Food and Drug Administration (FDA). http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf

The STAY OF ACTION was a *Petition for Administrative Action Regarding Confirmation of Efficacy End Points of Phase III Clinical Trials of COVID19 Vaccines*. http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf

The STAY OF ACTION is based upon the faulty PCR tests that were used in the vaccine trials: http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf

Before an EUA or unrestricted license is issued for the Pfizer vaccine, or for other vaccines for which PCR results are the primary evidence of infection, all "endpoints" or COVID-19 cases used to determine vaccine efficacy in the Phase 3 or 2/3 trials should have their infection status confirmed by Sanger sequencing, given the high cycle thresholds used in some trials. High cycle thresholds, or Ct values, in RT-qPCR test results have been widely acknowledged to lead to false positives.

Read the full Stay of Action here. http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf

The FDA never even replied to this filing, let alone have their attorneys try to defend their actions.

Similar to Dr. Lee's Stay of Action filed with the FDA, Dr. Wolfgang Wodarg and Dr. Michael Yeadon filed an emergency STAY OF ACTION with the European Medicines Agency. http://healthimpactnews.com/wp-content/uploads/sites/2/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

This STAY OF ACTION was very similar to the one filed with the FDA in the U.S. by Dr. Sin Hang Lee, and demanded that clinical trials be STOPPED until there was an accurate testing mechanism in place to correctly identify SARS-CoV-2, since the PCR test is very inaccurate. http://healthimpactnews.com/wp-content/uploads/sites/2/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

Dr. Yeadon, the former head of Pfizer research, also went public in a viral video recording where he stated that the COVID Pandemic is over, and that it is being kept alive by false narratives using the faulty PCR tests. See:

"Pandemic is Over" – Former Pfizer Chief Science Officer Says "Second Wave" Faked On False-Positive COVID Tests

https://healthimpactnews.com/2020/pandemic-is-over-former-pfizer-chief-science-officer-says-second-wave-faked-on-false-positive-covid-tests/

In their STAY OF ACTION filed in Europe, one day BEFORE the U.K. issued emergency use authorization, Dr. Yeadon stated that this experimental vaccine can make females infertile. http://healthimpactnews.com/wp-

content/uploads/sites/2/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

He writes that the Pfizer COVID vaccine as well as other COVID vaccines currently in Phase III trials are:

expected to induce the formation of humoral antibodies against spike proteins of SARS-CoV-2. Syncytin-1 (see Gallaher, B., "Response to nCoV2019 Against Backdrop of Endogenous Retroviruses" – http://virological.org/t/response-to-ncov2019-against-backdrop-of-endogenous-retroviruses/396), which is derived from human endogenous retroviruses (HERV) and is responsible for the development of a placenta in mammals and humans and is therefore an essential prerequisite for a successful pregnancy, is also found in homologous form in the spike proteins of SARS viruses.

There is no indication whether antibodies against spike proteins of SARS viruses would also act like anti-Syncytin-1 antibodies. However, if this were to be the case this would then also prevent the formation of a placenta which would result in vaccinated women essentially becoming infertile.

To my knowledge, Pfizer/BioNTech has yet to release any samples of written materials provided to patients, so it is unclear what, if any, information regarding (potential) fertility-specific risks caused by antibodies is included.

According to section 10.4.2 of the Pfizer/BioNTech trial protocol, a woman of childbearing potential (WOCBP) is eligible to participate if she is not pregnant or breastfeeding, and is using an acceptable contraceptive method as described in the trial protocol during the intervention period (for a minimum of 28 days after the last dose of study intervention).

This means that it could take a relatively long time before a noticeable number of cases of post vaccination infertility could be observed. (Source.)

Dr. David Martin, Dr. Judy Mikovits, Dr. Sherri Tenpenny, and others: These are NOT vaccines

Dr. David Martin, Dr. Judy Mikovits, Dr. Sherri Tenpenny, and many other doctors and scientists claim that the mRNA experimental COVID injections do NOT meet the legal definition of a "vaccine," and that the FDA is calling these injections "vaccines" to cover themselves legally.

These are NOT fringe doctors and scientists. While I have never met Dr. Martin, I have known Dr. Tenpenny for more than a decade, and Dr. Mikovits for several years now, and have published much of their work here on *Health Impact News*.

Dr. Sherri Tenpenny is a doctor of Osteopathy, and one of the world's most articulate researchers when it comes to vaccines. She is a highly sought expert to speak on the issue, and a well-published author.

Dr. Judy Mikovits has years of government research experience working directly with Dr. Anthony Fauci and others, and has suffered greatly in her life for blowing the whistle on government fraud in research. Along with Dr. David Martin, she was featured in the film produced by filmmaker Mikki Willis, Plandemic. See:

PLANDEMIC: Full Feature Film Released Online Amidst Tremendous Opposition and Attempts to Censor it

https://healthimpactnews.com/2020/plandemic-full-feature-film-released-online-amidst-tremendous-opposition-and-attempts-to-censor-it/

In a recent 2-hour live stream event called "Focus on Fauci," Dr. David Martin explained that the current experimental mRNA COVID injections are not vaccines, but medical devices.

This is not a vaccine.

We need to be really clear. We're using the term "vaccine" to sneak this thing under public health exemptions.

This is not a vaccine. This is an mRNA packaged in a fat envelope, that is delivered to a cell.

It is a medical device designed to stimulate the human cell into becoming a pathogen creator.

It is not a vaccine. Vaccines actually are a legally defined term, and they're a legally defined term under public health law, they're legally defined term under the CDC and FDA standards.

And a vaccine specifically has to stimulate both an immunity within the person who is receiving it, but it also has to disrupt transmission.

And that is not what this is. They have been abundantly clear in saying that the mRNA strand that is going into the cell, it is not to stop transmission. It is a treatment. But if it was discussed as a treatment, it would not get the sympathetic ear of the public health authorities, because then people would say, well what other treatments are there? (Full article.)

Dr. Mikovits and Dr. Tenpenny have previously stated, prior to the FDA issuing EUAs for these experimental injections, that if these experimental "vaccines" were administered to the U.S. population, that there would be at least 50 million people murdered by lethal injection. See:

Hundreds of Doctors Worldwide Warn Against the Experimental mRNA Injections

Dozens of doctors from around the world came together to issue a dire warning about the experimental mRNA injections, and created a video where they all testified.

Since publishing this video on our Bitchute Channel about 6 weeks ago, it has been viewed by over 375,000 people. https://www.bitchute.com/video/H9GyqoPMvfRa/

Can we Trust the Pharmaceutical Companies Making these "Vaccines"?

Short answer: no!

These are criminal organizations, and you can verify this for yourself by searching the Department of Justice (DOJ) website and see which group of businesses has the most cases of criminal fraud settled each year.

Here is a report I have used in the past covering the years 2009 through 2016, but there may be a more recent report:

https://www.justice.gov/opa/press-release/file/918366/download

Health Care Fraud led the pack, with over $19 BILLION in settlements, and no serious close competitors. https://healthimpactnews.com/2020/criminal-pfizer-inc-wins-covid-vaccine-race-hundreds-of-millions-of-doses-expected-to-be-ready-within-weeks/

As we have previously reported, Pfizer is one of the largest criminal organizations in the world, having repeatedly paid out BILLIONS of dollars in settlements for fraud, including a 2009 settlement for fraud that they reached with the U.S. Department of Justice for $2.3 BILLION, the largest ever fraud settlement in the history of the DOJ at that time. (Source.). https://www.justice.gov/opa/pr/justice-department-announces-largest-health-care-fraud-settlement-its-history

See: Criminal Pfizer Inc. Wins COVID Vaccine Race? Hundreds of Millions of Doses Expected to be Ready Within Weeks

https://healthimpactnews.com/2020/criminal-pfizer-inc-wins-covid-vaccine-race-hundreds-of-millions-of-doses-expected-to-be-ready-within-weeks/

These are verifiable facts from the DOJ website, and these are the companies you are trusting when you get an experimental mRNA COVID injection.

Can We Trust the FDA and the CDC?

Can you trust a fox to watch your hen house?

The CDC is the largest purchaser of vaccines in the world, allocating over $5 BILLION in their budget (supplied by American taxpayers) each year to purchase and distribute vaccines from Big Pharma. See:

Should the CDC Oversee Vaccine Safety When They Purchase Over $5 Billion of Vaccines from Big Pharma? https://healthimpactnews.com/2018/should-the-cdc-oversee-vaccine-safety-when-they-purchase-over-5-billion-of-vaccines-from-big-pharma/

Do you think this might be a conflict of interest??

Secondly, the CDC owns over 56 patents on vaccines, and many of their scientists earn royalties from the sale of vaccines. (Source.) https://www.greenmedinfo.com/blog/examining-rfk-jrs-claim-cdc-owns-over-20-vaccine-patents

Do you think this might be a conflict of interest??

The CDC has a long history of corruption, and over the years many of their own scientists have tried to blow the whistle on this corruption only to be silenced. See some of our previous coverage on CDC corruption:

Can We Trust the CDC? British Medical Journal Reveals CDC Lies About Ties to Big Pharma https://vaccineimpact.com/2015/can-we-trust-the-cdc-british-medical-journal-reveals-cdc-lies-about-ties-to-big-pharma/

In addition, many of the directors running the CDC go on to work for Big Pharma after they complete their term at the CDC. See:

Former CDC Director that Approved Gardasil Vaccine and Became Head of Merck's Vaccine Division Named "Woman of the Year"
https://healthimpactnews.com/2018/former-cdc-director-that-approved-gardasil-vaccine-and-became-head-of-mercks-vaccine-division-named-woman-of-the-year/

Dr. Scott Gottlieb was the former Food and Drug Administration (FDA) Commissioner. He joined the board of directors of Pfizer, Inc.—the world's largest pharmaceutical company and second largest manufacturer of vaccines, in 2019 just shortly after he left the FDA. Pfizer, which posted total revenues of $53.7 billion in 2018, announced Dr. Gottlieb's election to the board on June 27, 2019.

On July 22, 2020 President Trump's "Operation Warp Speed" project awarded $1.95 BILLION to Pfizer and BioNTech for 100 million doses of their mRNA-based COVID-19.

So, what do you think? Can we trust the CDC and the FDA?

And tell me again why you want to get injected with one of these non-FDA approved experimental injections?

Memorize this information. Copy it, print it, save it, share it.

Start your conversations with anyone thinking about getting one of these injections with a question:

Why do you want to receive a non-FDA approved experimental mRNA COVID injection?

Put THEM on the defensive. Listen to their answer, and then quietly, in gentleness and hopefully in love, share some REAL FACTS with them, starting with what the FDA has published regarding these injections.

They probably truly believe they are doing something good for themselves and public heath, but in fact they are doing something that only benefits Big Pharma and the Globalists' agenda, which is now led by a former computer nerd and college drop-out, Bill Gates.
https://healthimpactnews.com/2020/how-bill-gates-monopolized-global-health/

We have much to say about this, but it is hard to explain because you are slow to learn.

In fact, though by this time you ought to be teachers, you need someone to teach you the elementary truths of God's word all over again.

You need milk, not solid food! Anyone who lives on milk, being still an infant, is not acquainted with the teaching about righteousness.

But solid food is for **the mature, who by constant use have trained themselves to distinguish good from evil**. (Hebrews 5:11-14)

Note: certain words which evoke censorship have been modified intentionally to minimize the chance of restriction of speech and opinion.

Neither Pfizer-BioNTech nor Moderna has produced a product which meets the legal definition of a va((ine. If they marketed their so-called "va((ines" as what they are, Gene Therapy biological agents. designed for chemotherapy 'prophylaxis against a disease which cannot be properly diagnosed using current testing methods', they would not be covered by the blanket immunity from financial responsibility granted to vaxx makers, marketers and merchants. Instead, the appallingly high rate of serious, life threatening and lethal impacts would expose them to huge financial risk.

Vaxx's are legally defined as preparations using all or part of a living organism to induce immunity, that is, protection against infection with the agent which the vaxx is made from or targeted toward.

Both of the currently deployed va((ines fail to meet that test. Pfizer admitted that chimpanzees who had received this preparation still developed clinical disease after exposure to the alleged vaxx. Moderna admits that the preparation being administered was not evaluated for the development of immunity and both of them focus only on one part of the alleged COVID-19 pathogen. This in no way results in the development of either immunity, reduction of

transmission of the virus or reduction of disease. Further, it in no way results in a lessening of severity of symptoms if the disease does develop.

What do these biological devices do? They serve as gene therapies, chemotherapeutic agents, for a disease that is not present in the people receiving it.

Dr. Martin [above video] asks in this vitally important video how many people would volunteer to be experimented upon with gene therapy for a disease they do not have and which has a 99+% survival rate. Would you? How about putting this agent, whose danger is just beginning to become clear, into your parents or children?

Are there, as the Russians allege, nanochips in this preparation? Is the reverse transcriptase which weaves the mRNA into your DNA harmful? deadly? carcinogenic? an infertility/sterility agent? Does it shorten lifespans? Does it cause immune dysfunction? Alzheimer's Disease? Parkinson's Disease? Diseases and conditions that have no name yet?

All this with, under the deceptive label of a vax((ine, without any liability on the part of the companies involved at all.

Step right up.

Or not. How about not? Since the faux vaxx is experimental, the FDA says that you have the right to be informed about its benefits and risks and refuse it.

Expert witness F. William Engdahl – Expert Testimony

Expert witness F. William Engdahl is strategic risk consultant and lecturer, he holds a degree in politics from Princeton University and is a best-selling author on oil and geopolitics. Witness Engdahl submits the following expert testimony regarding Operation Lockstep 2010 and Defendants Bill Gates, Rockefeller Foundation, Global Business Network, and Peter Schwarz

[formerly a futurist with Stanford Research Institute (SRI) in the late 1970s, and then Futurist at the Shell Oil Company of the Royal Crown of the Netherlands, also Defendants herein.]

Expert witness Engdahl states, “The report in question has the bland title, “Scenarios for the Future of Technology and International Development.” It was published in May 2010 in cooperation with the Global Business Network of futurologist Peter Schwartz. The report contains various futurist scenarios developed by Schwartz and company. One scenario carries the intriguing title, “LOCK STEP: A world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen pushback.” Here it gets interesting as in what some term predictive programming.”

“The Schwartz scenario states, 'In 2012, the pandemic that the world had been anticipating for years finally hit. Unlike 2009’s H1N1, this new influenza strain — originating from wild geese — was extremely virulent and deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months...' He continues, 'The pandemic also had a deadly effect on economies: international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains. Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.” This sounds eerily familiar.

“Then the scenario gets very interesting: 'During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body- temperature checks at the entries to communal spaces like train stations and supermarkets. Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even

93 (108)

intensified. In order to protect themselves from the spread of increasingly global problems — from pandemics and transnational terrorism to environmental crises and rising poverty — leaders around the world took a firmer grip on power.'”

“A relevant question is whether certain bad actors, and there are some in this world, are opportunistically using the widespread fears around the COVID-19 to advance an agenda of 'lock step' top down social control, one that would include stark limits on travel, perhaps replacing of cash by 'sanitary' electronic cash, mandatory vaccination even though the long term side effects are not proven safe, unlimited surveillance and the curtailing of personal freedoms such as

political protests on the excuse it will allow 'identification of people who refuse to be tested or vaccinated,' and countless other restrictions. Much of the Rockefeller 2010 scenario is already evident. Fear is never a good guide to sound reason."

EXCERPT:

– Part 1 – 0:05 – Hello, everyone. I'm Anita Cicero, Deputy Director of the Johns Hopkins Center for Health Security. And today I will be your master of ceremonies for event to a one. On behalf of our center and our partners, the World Economic Forum and the Bill and Melinda Gates Foundation, I'd like to extend a very warm welcome to our audience here in New York, as well as our larger virtual audience participating online today. – 0:31 – The goal of the event to a one exercise is to illustrate the potential consequences of a pandemic and the kinds of societal and economic challenges they would pose. The scenario also highlights the very critical role that global business and public private partnerships play in preparing for and responding to pandemics. – 0:55 – Today's scenario is going to simulate meetings of a multi stakeholder group – 1:00 – called the pandemic emergency board. This board has been urgently convened by the World Economic Forum. And Johns Hopkins has been asked to moderate the board meetings and provide expertise during the board's deliberations. – 1:16 – The mission of the pandemic emergency board is to provide recommendations to deal with a major global challenge arising in response to an unfolding pandemic. – 1:26 – The board is comprised of highly experienced leaders from business, public health and civil society. – 1:33 – The board's recommendations are aimed at top decision makers in national governments, global business and international organizations. In this scenario, Tom Inglesby, the director of the Johns Hopkins Center for Health Security, will be chairing the board and serving as the moderator for its discussions. Today's exercise will simulate four meetings of the pandemic emergency board and each meeting will be devoted to one key topic. – 2:01 – Each meeting will start with a video and a briefing that will provide the information needed for the board members to engage. – 2:09

97 (108)

– Please note, this is not a test of any particular person, organization or nation, the participants are all playing as themselves, that is senior business executives, NGO leaders and government officials. They're not expected to be pandemic experts. We've really asked them to participate based on their own expertise and their best professional judgment. With the exception of Tom Inglesby, none of the participants know any of the details about how the exercise will unfold.

World Military Games, Wuhan China [October 18, 2019] Probable cause evidence establishes that Defendants named and unnamed including (a) US Military Mission to World Military Games, (b) Fort Dietrich MD USA Bioweapons Laboratory, (c) unnamed military intelligence operatives of the MOSSAD or the Defendant State of Israel, (d) unnamed military, intelligence, and political policy operatives within the Defendants United States of America and Peoples Republic of China, (e) the Organizing Committee of the World Military Games, Wuhan, China in criminal conspiracy and coordination with the Organizing Committee of Event 201 and the Defendants named and unnamed in Lockstep 2010-2020 Plan continued 5G/AI Coronavirus Genocide at the **World Military Games, Wuhan China [October 18, 2019]** by the following acts that create immediate and irreparable harm to all human beings similarly situated in violation of Articles 6 and 7 of the International Criminal Code:

(1) **Foreshadowing5G/AI Coronavirus Genocide** – As with the 2012 London Olympics creating a COVID-19 Virus at its Opening Games, Defendant Organizing Committee of the World Military Games, Wuhan, China created a meme COVID-19 virus at its Opening Ceremonies starting on October 18, 2019 in Wuhan China, for the purpose causing irreparable and immediate harm to all human beings similarly situated by covertly and malevolently signaling that a genocidal 5G/AI Coronavirus Pandemic was being released at the Games, in accordance with Defendants Operation Lockstep 2010-2020:

98 (108)

(2) 5G/AI Coronavirus Genocide Released at World Military Games, Wuhan, China: According to the above-cited evidentiary submission, the U.S. military delegation to the October 2019 World Military Games, Wuhan, China trained at the site of the Bioweapons Laboratory, Fort Dietrich, MD, and samples of 5G/AI Coronavirus Genocide in the form of COVID-19 were infiltrated and embedded into the U.S. Delegation to the World Military Games. At the Games

Defendants named and unnamed and members of the criminal conspiracy released the COVID 19 virus publicly, and 4 members of the U.S. military delegation became infected with 5G/AI Coronavirus, along with 42 members of the staff of the Hotel at which the U.S. military delegation stayed also became infected with 5G/AI Coronavirus as part of a 5G/AI Coronavirus Genocide against all humans similarly situated, thereby causing imminent harm in violation of Articles 6 and 7 of the International Criminal Code.

REQUIRED VIEWING! Dr. Sherri Tenpenny gives VERY important information! Hyper-immune response in test animals for previous attempts at coronavirus vaccines, like SARS and MERS, has been a persistent problem. All is well for a while, until the animals are exposed to the wild mutated virus. Dr. Tenpenny and other scientists have forecast that millions may die, and it will be blamed on a new strain of COVID, making an argument for even more deadly vaccines. Tribunal Judges Affirmation - Tribunal Judges made this affirmation at the onset of the Trial or their Presentation segment:

"I affirm as a Tribunal Judge of the Natural and Common Law Tribunal for Public Health and Justice that to the best of my ability I will render Justice using Natural Law, Common Law, International Criminal Code, and Social Law."

Summation of Judgment, Verdict, and Sentences: With approximately 8 hours of Trial Testimony and deliberation, and an extensive Evidentiary Docket, the Tribunal Judges found allegations of the Indictment to be proven beyond a reasonable doubt and the Tribunal Judges approved the Emergency Injunctions and Writs of Mandamus as set out in the Indictment and Amendments, and handed out Incarceration sentences to Named Defendants in the Indictment, by Majority Aye vote, with 1 Abstention and 1 Nay vote.

Judgment and Verdict:

According to its Authority and Powers under the Natural and Common Law and in accordance with Articles 6 and 7 of the International Criminal Code -

https://www.icc-cpi.int/NR/rdonlyres/EA9AEFF7-5752-4F84-BE94-0A655EB30E16/0/Rome_Statute_English.pdf

the Tribunal hereby Orders:

1. Emergency Injunctions to ban (a) Any and all allopathic Vaccinations including COVID vaccinations, and Any and all uses of Aspartame under any of its names for human consumption worldwide, (b) Any and all 5G and above installations and activations worldwide, (c) Genocidal Pandemic Social Control Methods like mandatory Lockdowns, Masking, quarantines, Detention Centers, Concentration Camps, etc., (d) Any and All intentional disinformation and misinformation by media and Social media concerning the Genocidal Technologies Pandemic as defined in the Indictment, (e) Any and All Financial abuse or fraud by Financial, Banking or Unjust Enrichment entities or individuals regarding the Genocidal Technologies Pandemic as defined in the Indictment, (f) Any and All abuse by Sentient and/or Strong or Other AI Artificial Intelligence around the Genocidal Technologies Pandemic as defined in the Indictment, (g) Any
